## Mathematical life of G. I. Arkhipov

V. N. Chubarikov

M. V. Lomonosov Moscow State University, Russia, 119991, Leninskie Gory, 1, chubarik1@mech.math.msu.su

This paper presents the most important discoveries made by outstanding mathematician G. I. Arkhipov since the end of 60s to the middle of 2000s.

*Key words:* exponential sums, simple trigonometric sums estimates, Hilbert–Kamke problem.
